Passed at the 222nd Academic Affairs Meeting (30 Dec. 2025)

Passed at the 224th Academic Affairs Meeting (29 May 2026)

- Article 1 These guidelines are set out in accordance with Article 25 of the enforcement rules of the University Law and take into consideration the actual situations encountered at the National Taiwan University of Science and Technology (Taiwan Tech).
- Article 2 Students who select courses offered by other universities are restricted to taking courses that are not being offered at Taiwan Tech during that particular semester. Exceptions will be made for undergraduate students who are retaking failed courses, those who have extended their period of study, or those who are taking a minor, double major, or credit program at another university.
- The courses offered by other universities which a student has selected must not be scheduled at the same time as courses at Taiwan Tech selected by the same student. If such a conflict occurs, the off-campus course selection will be cancelled.
- Article 3 For Master's Program and Doctoral Program students, in principle, the total credits taken in courses offered at other universities shall not exceed one third of the required minimum credits for graduation, as set out by the regulations of the student's department, graduate institute, or study program. Whether credits beyond this limit can be taken as graduation credits is determined by applicants' home departments. Undergraduates taking courses offered at other universities cannot take more than six credits or two such courses each semester. Exceptions will be made for students pursuing a minor, a dualmajor, or a credit hour study program.
- The graduation credits for students who take distance learning courses, as mentioned in the previous two items, will be calculated according to the relevant regulations.
- Article 4 Students from other universities shall complete inter-university course registration during this University's course add/drop period. Once course registration has been completed in accordance with the regulations, refunds will not be granted, except in cases where a course is cancelled due to insufficient enrollment. Course withdrawal shall be handled in accordance with the regulations of the students' home university.

- Article 5 Taiwan Tech may collect payment of credit hour, laboratory, and materials fees from students of other universities who select its courses.
- Article 6 Students selecting courses offered by other universities should follow the procedures outlined below:
Students must complete the Inter-University Course Selection form and obtain signed approval from their home department, institute, or program, as well as the Office of Academic Affairs. Approval must also be secured from the course instructor, the course-offering department, and the Office of Academic Affairs of the host institution. The completed form shall be submitted to Taiwan Tech Office of the Academic Affairs for course registration and final grade recording during the designated add/drop period.
- Article 7 When this university enters into agreements with other universities (including those in the National Taiwan University System) to allow students at the universities which have signed the agreement to take courses at each other's schools, the procedures for selecting courses and the fees to be charged will be handled according to the guidelines set out in each agreement.
- Article 8 If students who take courses offered by other universities do not follow the procedure described above, the grade(s) for the course(s) will not be accepted.
- Article 9 Students from other universities who select courses offered during Taiwan Tech's summer term or Taiwan Tech students who select courses offered during the summer term at other universities may also follow these guidelines in doing so.
- Article 10 All matters not directly covered by the above guidelines will be handled according to other relevant university regulations.
- Article 11 The above guidelines will go into effect upon approval by the Academic Affairs Council. The same is true of any revisions to the guidelines.
